CowSignals for farmers

Cows send out useful information every moment of the day. You just need to know how to read the signals. We train advisors and dairymen in the field of practical dairy farming. We focus on the cows demands on barn, feed and care. Dairy farming is about cows after all. Our lectures inform and confront in a pleasant way. Our training is instructive and practical. Our advice is to the point and based on scientific knowledge. We go for less disease and 2 more lactations. Our aim is "Happy cows, happy farmers".
